

Reading Quiz #1

Read the following article from the Seattle Times:

<https://www.seattletimes.com/business/boeing-aerospace/failed-certification-faa-missed-safety-issues-in-the-737-max-system-implicated-in-the-lion-air-crash/>

It is free to read online if you do not have Adblock enabled.

We have also exported it as a PDF

[herehttps://cmu-17313q.github.io/readings/flawed_analysis_boeing737_max.pdf](https://cmu-17313q.github.io/readings/flawed_analysis_boeing737_max.pdf)

... and then answer the reading questions on [Gradescope](#)

If you find this material interesting, we also recommend :

<https://www.theverge.com/2019/5/2/18518176/boeing-737-max-crash-problems-human-error-mcas-faa>

It describes a number of the human errors contributing to the 737 Max story and

<https://www.nytimes.com/2019/09/18/magazine/boeing-737-max-crashes.html>

...which blames pilot error rather than some of the other sources and delves into the changing economics of aviation and its impact on Boeing's responses to the crises and airplane design generally. You can access the full text of NYTimes articles through the CMU library:
